DMARC.7Z;

Dear Mahmoud,

Kindly find the attached compressed file, which contains some DMARC Zip Files.

What we need exactly for this task

- Upload form to upload a Zip file like this one "google.com!isnsc.com!1578355200!1578441599.zip"
- Extract the ZIP file
- Read the XML file inside this compressed file "google.com!isnsc.com!1578355200!1578441599.xml"
- Then parse the XML file contetn and display it with a format like this one <https://mxtoolbox.com/DmarcReportAnalyzer.aspx?id=F-71b14fae-287e-4798-800f-1a65133e1940>

### Notes

- The task should be written in PHP
- Try as possible no to use 3<sup>rd</sup> party libraries in the task
- The task deadline will be next Sunday "February 23<sup>rd</sup>"
- If you have any questions feel free to contact me by replying to this email
